## PROFESSIONAL SUMMARY

Full-stack developer with 5 years of experience building distributed systems, developing modular UI platforms, and maintaining high-throughput microservices across fintech and software consultancy domains.

## TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Java, C, C++
- **Software Design:** Design Patterns, OOP, SOLID Principles, Data Structures and Algorithms
- **Frontend:** React, Next.js, Angular, Redux, Tailwind, SCSS, HTML, CSS, Vitest, Jest, Storybook
- **Backend:** Spring, Spring Boot, JPA, Struts, Java Swing
- **Infrastructure & Databases:** Kubernetes, Kafka, SQL, PostgreSQL, Oracle SQL, MongoDB, Mongoose, Jenkins, Docker, Webpack, pnpm

## EXPERIENCE

**Lead Software Engineer | Accolite Digital India Pvt. Ltd.** Oct 2024 – Present

- **Full Stack Microservices Project (1+ years):**
  - Developed front-end components using React and pnpm, while quickly onboarding to a Ruby on Rails environment to maintain the microservices backend.
  - Implemented Cube.js for performance caching and optimized complex PostgreSQL queries.
  - Maintained and updated event-driven streaming pipelines using Apache Kafka.
- **Next.js Frontend Project (5 months):**
  - Built a web application deployed on Vercel using React and Next.js.
  - Developed individual UI components, integrated third-party APIs, and wrote test cases utilizing Vitest.
- **AI Database Administration Tool (5 months):**
  - Extended the UI of an existing Java Swing database application to integrate AI tools (Gemini and OpenAI).
  - Configured the system to dynamically append default context to prompts based on user permissions and configurations.

**Senior Software Engineer | Stonewain Systems Private Limited** Dec 2021 – Sep 2024

- Created configurable components, such as spreadsheets and forms, in line with the event-driven architecture of internal frontend libraries.
- Upgraded frontend projects to utilize the latest Angular versions.
- Developed REST APIs using Spring Boot and JPA, and maintained servers using the Struts framework with JDBC for database connectivity.
- Built and maintained functionalities to support concurrent users across related server endpoints.

- Restructured existing codebase and implemented common design patterns to improve overall maintainability.
- Worked on various backend tasks and database management using Oracle SQL and PL/SQL.
- Utilized Docker and Jenkins to verify multi-environment deployments and monitor deployment health.

## PROJECTS

**Bookmark Manager | Chrome Extension & Local Server** Mar 2024 – Jun 2024

- Wrote a browser extension providing online/offline bookmark management, currently maintaining ~2,500 users on the Chrome Web Store.
- Built a local server for testing without requiring browser loading.
- **Technologies:** TypeScript, React, Redux, Redux Toolkit, Webpack, SCSS.

## EDUCATION

- **B.Tech. in Civil Engineering** – Indian Institute of Technology (IIT) Roorkee (2010 – 2014)
- **M.B.A.** – University Business School, Panjab University (2019 – 2021)

## ACHIEVEMENTS

- Awarded "Trailblazer" rating at Accolite—the highest organizational rating for consistent delivery beyond expectations and significant positive impact.
- **JEE Advanced (IIT-JEE):** All India Rank 1923
- **JEE Mains (AIEEE):** All India Rank 423
